## Independent Auditors' Report

The Board of Directors  
JDRF International:

We have audited the accompanying consolidated financial statements of JDRF International, which comprise the consolidated statements of financial position as of June 30, 2021 and 2020, and the related consolidated statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

### *Management's Responsibility for the Consolidated Financial Statements*

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditors' Responsibility*

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### *Opinion*

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of JDRF International as of June 30, 2021 and 2020, and the changes in its net assets and its cash flows for the years then ended, in accordance with U.S. generally accepted accounting principles.

### (1) Organization

JDRF International (JDRF) is the leading global nonprofit organization funding type 1 diabetes (T1D) research with a mission to accelerate life-changing breakthroughs to cure, prevent, and treat T1D and its complications. JDRF maintains an in-house team of experts that identifies the most promising strategies to fulfill its mission. Over the decades, JDRF's work has resulted in significant developments in the understanding of the disease—bringing us closer to prevention and a cure—and better treatment options for people with T1D.

In addition to direct research funding, JDRF is able to leverage its influence to attract hundreds of millions of dollars more in follow on investments by third parties to the T1D space each year. JDRF's ability to create funding partnerships and attract follow on funding is a direct reflection of the credibility, success and influence that has been established over five decades. By leveraging relationships, JDRF helps generate a greater number of innovative approaches to curing, preventing, and better treating T1D.

JDRF solicits contributions from the public and engages in various fundraising activities. Funds raised are used principally to support T1D research. Furthermore, JDRF promotes public education initiatives and advocates for U.S. and foreign government funding of T1D research and raises awareness among Members of Congress of the financial, medical, and emotional costs of the disease.

Since 1997, JDRF has helped secure nearly \$3 billion in Federal funding for T1D research through the Special Diabetes Program. This program—administered by the National Institutes of Health—has produced tangible results in advancing cure therapies, prevention studies, and treatments—including artificial pancreas technology and groundbreaking advances in vision improvement among people with diabetic eye disease. JDRF also advocates for regulatory and health policies, which enable research to proceed without delay and provide widespread access to life-changing T1D therapies.

JDRF drives early stage commercial investment in T1D therapies through an independently managed venture philanthropy fund. JDRF T1D Fund LLC (The Fund), formerly JDRF Therapeutics Fund LLC, is a limited liability company whose sole member is JDRF and was activated during the year ended June 30, 2016 and is considered a disregarded entity of JDRF. The purpose of The Fund is to materially accelerate the development of drugs, devices, diagnostics, and vaccines to treat, prevent, and cure T1D. The Fund provides funding to companies and institutions conducting such T1D research and development through investment capital or other commercial agreements using donations made to The Fund and monies provided by JDRF.

JDRF financial results are presented on a consolidated basis, including JDRF and The Fund. All significant inter-company balances and transactions have been eliminated in consolidation.

JDRF's consolidated financial statements include the accounts of The Fund and JDRF Chapters located throughout the United States. International affiliates are in Canada, Australia, the United Kingdom, and several other countries. The financial statements of these international affiliates are not included in the accompanying consolidated financial statements since JDRF does not exercise control over their management or operations. However, international affiliates do provide contributions to JDRF to support funding of research grants as presented in note 10.

### Notes to Consolidated Financial Statements

June 30, 2021 and 2020

(In thousands)

JDRF is a not-for-profit organization exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code and is organized under the laws of the Commonwealth of Pennsylvania. The effect of income tax positions is recognized only if those positions are more likely than not of being sustained. Income generated from activities unrelated to JDRF's exempt purpose is subject to tax under Internal Revenue Code Section 511. Unrelated business income tax liability was insignificant for the years ended June 30, 2021 and 2020.

The spread of the coronavirus (COVID-19) around the world continues to cause significant volatility in the U.S. and international markets. COVID-19 disrupted JDRF's event-based fundraising model and reduced its revenue. As a result, JDRF has accelerated new strategies to ensure its mission is met and its communities are served, becoming a more volunteer powered organization.

## (2) Summary of Significant Accounting Policies

### (a) Basis of Presentation

JDRF's consolidated financial statements are prepared on the accrual basis of accounting in accordance with standards established by the Financial Accounting Standards Board (FASB) for external financial reporting by not-for-profit organizations. Accordingly, net assets and changes therein are classified and reported as follows:

*Without donor restrictions* – Net assets that are not subject to donor-imposed restrictions.

*With donor restrictions* – Net assets subject to donor-imposed restrictions that will be met either by actions of JDRF, by the passage of time or satisfaction of donor-imposed restrictions, and donor-restricted endowment that stipulate that the principal be maintained permanently, but permit JDRF to expend part or all the income and gains derived therefrom.

Revenues and gains and losses on investments and other assets are reported as changes in net assets without donor restrictions unless limited by explicit donor-imposed restrictions or by law. Expenses are reported as decreases in net assets without donor restrictions.

When a time restriction ends or a purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the consolidated statements of activities as net assets released from restrictions.

The composition of net assets with donor restrictions as of June 30, 2021 and 2020 is as follows:

	<u>2021</u>	<u>2020</u>
Future periods, principally pledges receivable, and split-interest agreements	\$ 55,066	38,590
Other contributions/purpose restricted	3,575	1,863
Perpetual endowment	8,912	7,709
	<u>\$ 67,553</u>	<u>48,162</u>

#### **(b) Contributions**

Contributions, including unconditional promises to give (pledges), are reported as revenues in the period received or pledged. Contributions with purpose or time restrictions are reported as increases in net assets with donor restrictions and are reclassified to net assets without donor restrictions when the purpose or time restrictions are met. Contributions subject to donor-imposed stipulations that the corpus be maintained permanently are recognized as increases in net assets with donor restrictions.

Unconditional promises to give are recognized initially at fair value as contributions revenue in the period such promises are made by donors. Fair value is estimated considering anticipated future cash receipts (after allowance is made for uncollectible contributions) and discounting such amounts at a treasury yield rate commensurate with the duration of the donor's payment plan. In subsequent periods, the discount rate is unchanged and the allowance for uncollectible contributions is reassessed and adjusted if necessary. Amortization of the discount is recorded as additional contribution revenue in accordance with the donor-imposed restrictions, if any, on the contribution.

A contribution is conditional if the agreement includes both a barrier that must be overcome for the recipient to be entitled to the assets transferred and a right of return for the transferred assets or a right of release of the promisor's obligations to the transferred assets. Conditional promises to give are not recognized until they become unconditional, that is, when the barriers on which they depend are met. Contributions of assets other than cash are recorded at their estimated fair value. Contributions expected to be received after one year are discounted at a treasury yield rate of return.

Contributions received for future events, primarily walk and ride events, are recorded as deferred revenue and are recognized as revenue in the fiscal year the event takes place, which is generally within one year.

JDRF administers two types of split-interest agreements—Charitable Gift Annuities and Charitable Remainder Trusts. With Charitable Gift Annuities, cash or marketable securities are received from a donor in exchange for an annuity to be distributed for a fixed amount over the lifetime or lifetimes of the donor or other beneficiaries. With Charitable Remainder Trusts administered by JDRF, donated assets are received under a trust agreement established by the donor in exchange for an income stream to be distributed to the donor and/or other beneficiaries over a specified period. The distribution to the donor or other beneficiaries may be a fixed dollar amount (an annuity trust) or percentage of the fair value of the trust as determined annually (unitrust). For both Charitable Gift Annuities and Charitable Remainder Trusts, a related liability is recorded for the actuarially determined present value of the obligation to the annuitant or annuitants. The discount rates used to calculate the liability range between 0.40% and 8% at June 30, 2021. For Charitable Gift Annuities, the assets received are held by JDRF as general assets and the annuity liability is a general obligation.

In August 2020, JDRF received funding from the Coronavirus Aid, Relief, and Economic Security (CARES) Act, which was fully forgiven, and it has been recorded in other revenue in the statement of activities for the year ended June 30, 2021.

## **JDRF INTERNATIONAL**

### Notes to Consolidated Financial Statements

June 30, 2021 and 2020

(In thousands)

#### **(c) Cash and Cash Equivalents**

Cash equivalents consist of securities purchased with original maturities of three months or less, except for such instruments purchased by JDRF's investment managers as part of their long-term investment strategy and those managed internally as part of JDRF's operating investments portfolio.

#### **(d) Investments**

Investments include (i) Long-term investments made to increase earnings for support of JDRF's mission and investments which support underlying planned giving and endowment agreements; (ii) Programmatic investments made to provide equity capital to companies to materially accelerate the development of drugs, devices, diagnostics, and vaccines to treat, prevent, and cure T1D, and (iii) Operating investments.

The purpose of the operating investments is to earn an average yield above of that available from the commercial U.S. government money market fund while minimizing the risk of market-related loss over a one year horizon. Operating investments are reported at fair value and includes cash and securities with varying original maturity dates, both lesser than and greater than three months.

Long-term investments in debt and equity securities, including assets related to split-interest agreements, with readily determinable fair values are reported at fair value based upon quoted market prices. Investments in funds, which report net asset value (NAV) or its equivalent (NAV funds), are reported at estimated fair value. The estimated fair value of NAV funds, as a practical expedient, is the NAV as provided by the investment managers, and evaluated for reasonableness by JDRF. Due to the inherent uncertainties of these estimates, these values may differ from the values that would have been used had a ready market existed for such investments.

Programmatic investments are recorded at fair value.

As of June 30, 2021, JDRF T1D Fund invested \$66,789 in privately held companies with type 1 diabetes (T1D) related projects, of which \$63,339 are programmatic investments (note 3) and \$3,450 are programmatic notes receivable (note 8). These programmatic investments and notes receivable were made to provide equity capital to directly fund companies conducting the T1D research and development; therefore, there was no research grant related expense recorded thereby, decreasing the functional allocation percentage on research related expenses in the total program services while increasing the activities of the T1D fund through these investments.

#### **(e) Fixed Assets**

Fixed assets, which consist of furniture, equipment, and leasehold improvements, are recorded at cost. Depreciation is provided on a straight-line basis over the estimated useful lives of the assets, which approximate 3 to 10 years for furniture and equipment. Leasehold improvements are amortized on a straight-line basis over the shorter of the life of the asset or the lease term.

#### **(f) Fair Value**

Assets and liabilities reported at fair value are required to be classified within a fair value hierarchy, which gives preference to the use of observable inputs over unobservable inputs. Fair value is defined

## JDRF INTERNATIONAL

### Notes to Consolidated Financial Statements

June 30, 2021 and 2020

(In thousands)

as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted or published prices (unadjusted) in active markets for identical assets or liabilities that a reporting entity has the ability to access at the measurement date.
- Level 2 inputs are other than quoted or published prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs used when little or no market data is available.

JDRF follows Accounting Standards Update (ASU) (Topic 820), *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)*, which removes the requirements to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient and removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient.

#### **(g) Functional Allocation of Expenses**

The costs of providing the various programs and other activities are allocated based on time and have been summarized on a functional basis. Accordingly, certain costs (depreciation and amortization and operation and maintenance of plant) have been allocated among the programs and supporting services areas that were benefited. As discussed in note 2(d), programmatic investments provide equity capital to directly fund companies conducting T1D research and development that are completely tied to the mission. There was no research grant related expense recorded on those investments; therefore, they are not included in the calculation of the total functional expenses.

#### **(h) Use of Estimates**

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingencies at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the year. Estimates made in the preparation of the consolidated financial statements include fair value of investments, net realizable value of contributions and other receivable, and functional expense allocation. Actual results could differ from those estimates.

#### **(i) Upcoming Accounting Standard**

ASU No. 2016-02, *Leases* (Topic 842) This guidance, effective for JDRF's fiscal year ending June 30, 2023, requires a lessee to recognize a right of use asset and a lease liability, initially measured at the present value of the lease payments on the consolidated statement of financial position and disclosing key information about leasing arrangements. Management is evaluating the effect ASU 2016-02 will have on its consolidated financial statements.

**(3) Investments**

Investments (including operating, long-term, and programmatic investments) at June 30, 2021 and 2020 consisted of the following:

	<b>2021</b>	<b>2020</b>
Investments measured at fair value (Level 1):		
Cash and cash equivalents	\$ 136	197
Mutual funds:		
Equity	62,150	49,040
Fixed income	111,725	53,717
Programmatic investments measured at fair value:

Preferred stock (Level 3)	49,666	42,634
Investments measured at NAV:		
Hedge funds	749	829
Total investments	\$ 238,099	153,825

Included in investments are amounts related to Charitable Gift Annuities and Charitable Remainder Trusts totaling \$3,181 and \$1,690, respectively, at June 30, 2021 and \$2,723 and \$1,431, respectively, at June 30, 2020.

Investments are exposed to various risks, such as market and credit risks. Because of such risks, it is possible that change in investment values could occur and that such changes could materially affect JDRF's consolidated financial statements.

Information with respect to the strategies of investments is as follows:

**Preferred stock** – The Fund made investments in private and public companies for which it holds Series of Preferred Stocks to provide equity capital to help materially accelerate the development of drugs, devices, diagnostics, and vaccines to treat, prevent, and cure T1D. As of June 30, 2021, there are no unfunded contingent commitments to programmatic investments.

**Hedge funds** – Investments in one fund that employ “alternative” strategies, primarily involving marketable securities. In addition to stocks and bonds, financial instruments traded by these funds may include derivatives contracts (e.g., futures, forwards, swaps, and options related to stocks, bonds, commodities, interest rates, or currencies), or less liquid assets such as private placements, structured products, bank loans, real estate, and special-purpose vehicles. These funds often employ the use of leverage and short selling. This investment is on full liquidation in fiscal year 2021 with a minimal balance left as of June 20, 2021 due to lock up.

JDRF's ability to redeem or sell its investments in NAV fund is based upon the terms and conditions in effect. NAV funds can be redeemed or sold annually.

#### (5) Retirement Plans

JDRF maintains a Tax Deferred Annuity Plan (403(b)) which allows employees to defer a portion of their wages for saving for retirement. The plan provides an annual employer matching contribution. To receive employer matching contributions, an eligible employee must be employed by JDRF on the last day of the Plan year.

This Plan was amended effective June 30, 2020, to suspend the annual discretionary employer matching contribution, due to the financial impact of COVID-19 as authorized by the Cares Act and, as a result of the Cares Act legislation, employees were eligible to take distributions of up to 100% of their account balance, under the Hardship withdrawal option. The suspension of the discretionary match was removed as of June 30, 2021. Related contribution expense for the years ended June 30, 2021 and 2020 was \$1,080 and \$0, respectively.

#### (6) Allocation of Joint Costs

JDRF allocates joint costs between fund-raising and program services or management and general in accordance with Accounting Standards Codification Subtopic (ASC) No. 958-720, *Accounting for Costs of Activities of Not-for-Profit Organizations and State and Local Governmental Entities That Include Fundraising*. #### (c) *Line of Credit*

On January 23, 2013, JDRF entered into an agreement with a financial institution for an unsecured line of credit in the aggregate amount of \$5 million. The line was used in fiscal year 2020 and \$5 million was outstanding at June 30, 2021 and 2020, respectively. The line of credit expires March 31, 2022. Interest paid and accrued as of June 30, 2021 was \$164.

#### (13) **Endowment**

JDRF's endowment consists of seven individual donor-restricted endowment funds established for a variety of purposes. The Commonwealth of Pennsylvania has not enacted a version of the Uniform Prudent Management of Institutional Funds Act (UPMIFA), or a version of the Uniform Management of Institutional Funds Act (UMIFA). Governing law resides in 15 Pa. C.S. § 5548, *Investment of Trust Funds*. JDRF has interpreted Pennsylvania law as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, net assets with donor restrictions of a perpetual nature include (a) the original value of gifts to the donor-imposed endowment and (b) accumulations of investment returns to the donor-imposed endowment made in accordance with the direction of the applicable donor gift instrument, when applicable until appropriated for expenditure. The endowment funds are invested in SEC registered, institutional quality mutual funds across a range of diversified asset classes including domestic and international large and small cap stocks, emerging markets equities, domestic and international REITs, domestic and foreign bonds, and investment grade and high yield bonds.
